

Dear voter,

It has come to our attention that Measure G was included in error on some ballots for the upcoming November General Election. Leisure World will not be subject to the property tax levy proposed by Measure G. Therefore, Measure G should not have appeared on those ballots. Any votes from that area will not be included in the final tally.

If you live in that area and Measure G appears in error on your ballot, the ballot you were provided is still fine to use. Your vote will be counted for all other candidates and measures, and a replacement ballot is not required.
