Dear Council Member Doby,

It was wonderful to see you at the Library Advisory Board meeting! Thank you for representing Los Alamitos and for everything you do for the community.

I am pleased to give you an update on the tenant enhancement project at the Los Alamitos Rossmoor Library. Like any remodel, we've run into some unforeseen issues that needed to be fixed. Because of these unexpected challenges, we're now aiming for a late summer to early fall reopening, instead of late spring as we had hoped.

Despite the delays, great progress is being made to completely transform the space. We're making the library more accessible and inclusive, adding sustainable features like energy-efficient lighting and a building automation system.

The new space includes quiet study rooms, a teen lounge, and a program room. We're also focusing on making the library more aesthetically pleasing with comfortable seating, appealing design elements, and thoughtfully curated spaces to create a warm and inviting atmosphere.

The library is such an important resource, and we believe these enhancements will make it an even better place for everyone.

Thanks for your understanding and continued support!
